

OEB: Digital Certificates for Modern Continuing Education

Create and issue certificates in minutes.

Strengthen your metadata strategy and measure KPIs.

THE OEB SOLUTION

- ✓ Verifiable digital **badges and PDF certificates**
- ✓ Easy and fast creation with the **Badge Editor**
- ✓ **API and LMS integration** into existing systems
- ✓ **Automated** creation and issuing processes
- ✓ **AI-supported skill mapping** based on European standards (ESCO*)
- ✓ Direct **LinkedIn sharing**
- ✓ **Impact dashboard** with competency data
- ✓ **Service** and support for individual requirements and competency frameworks

„With OEB, we significantly streamlined our processes. The efficient distribution of our valuable credentials saved us a great deal of time and allowed us to focus more on our learners. For our learners, the platform offers an easy way to share their badges and certificates.“

– Madison Wells, Form21
Operations and Automations Lead

Digital Certificate: Badge with Metadata

- Recipient
- Issuing organization
- Learning unit title
- Issue date
- Award criteria
- Acquired competencies:

think creatively (E)

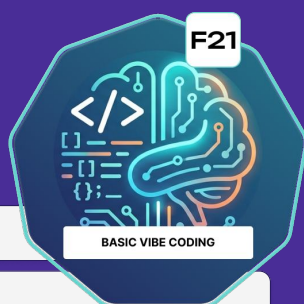

agile development (E)

computer programming (E)

🕒 25:00 h ▼

principles of artificial intelligence (E)

🕒 5:00 h ▼

BENEFITS FOR LEARNING PROVIDERS

EFFICIENCY: Automated, AI-supported processes.

VISIBILITY: Shareable badges for stronger brand presence.

MODERN LEARNER EXPERIENCE: Digital, competency-based credentials.

CREDIBILITY: Verifiable credentials build trust.

STRATEGY: The OEB Dashboard enables data-driven programme optimisation.

ESCO contains more than 14,000 skill definitions in 28 languages (<https://esco.ec.europa.eu>). Our AI assistant suggests suitable ESCO skills for each learning unit, making badges comparable, interoperable, and aligned with European standards.
